Ma'anshan Datai Machinery Technology Co., Ltd
Road construction machinery parts
One stop service provider

Main business and products

The company's main products cover the following categories:

1. Asphalt paver: accessories such as paver spiral blades, walking track rubber plates, walking chains, hopper wear-resistant bottom plates, conveyor chains, flat maintenance kits, conveyors, electronic control components, chain protection devices, etc. are used for road construction equipment.

2.Road milling machine accessories: milling cutter head (tool), cutter holder (tool holder), cutter drum (milling drum), transmission belt, conveyor belt, hydraulic components, bearings, walking track plate, scraper, sprinkler head, depth sensor, speed sensor, ultrasonic or laser leveling instrument accessories, control module and other component components

3. Road compactor: rubber shock absorbers, chains, cab, chains, tires, etc.

4. Blender accessories: mainly provide key accessories such as blades, lining plates, and mixing arms for imported and domestic concrete mixers.

The company operates in a manufacturer model, with a 2000 square meter factory building and an annual revenue ranging from 30.1 million to 50 million, demonstrating strong production capacity and market competitiveness.

Corporate Culture and Business Philosophy

Shaohua Heavy Industry always adheres to the principle of "excellent quality, excellent reputation", and is committed to providing customers with high-quality products and comprehensive after-sales service. The company focuses on technological innovation and equipment upgrades, with advanced production equipment and a technical team to ensure that products reach industry-leading levels in wear resistance, durability, and other aspects.

Market Position and Development Prospects

As one of the important enterprises in Bowang District, Ma'anshan City, Shaohua Heavy Industry has occupied a certain market share in the field of engineering machinery parts. The company's products not only meet domestic demand, but are also exported overseas, winning widespread customer recognition. In the future, the company plans to further expand its production scale and enhance its research and development capabilities to meet the growing market demand.

Summary

Ma'anshan Datai Machinery Technology Co., Ltd. has become an important participant in the construction machinery parts industry with its professional production capacity, high-quality products and services. The company will continue to uphold the concept of balancing innovation and quality, creating greater value for customers and promoting the sustainable development of the industry.
